

A HIGH-TECH EXPERIENCE

The high-tech Home Cinema at the Actis Technology Centre.

Actis Technologies has launched its first experience centre in Mumbai. Through the centre, Actis unveils India's first 3D tele-presence room and also an executive lounge, home cinema and training centre. Covering a total of

1800sqft, the multi-crore rupee Actis Experience Centre provides hands-on experience of audio and visual solutions catering to the enterprise, residential, hospitality, educational and government sectors. Various zones at the centre

The 3D tele-presence room demonstrates the latest in technology.

come with features such as advanced lighting control solutions and the media server. Other technologies employed are the touch-based control interfaces, including environment control systems, an interactive touch-sensitive table, multi-

room audio/video and the AV asset management and room scheduler.

Established in 1971, Actis specialises in audio-visual designing and building facilities for meeting, conferencing, training and entertainment.
